IT I sistemi per serramenti Uniform in Legno-Alluminio e Legno-Bronzo, vantano una vasta gamma di profili intercambiabili ideati per il rivestimento di ogni tipologia di apertura. Ogni sistema è studiato per semplificare l'applicazione dei telai in metallo al legno, proteggendo la parte esterna del serramento, integrandoli per esaltare l'estetica finale del prodotto.

EN Uniform's systems for Wood-Aluminium and Wood-Bronze doors and windows feature a vast range of interchangeable profiles suitable for application to any type of opening. Every system has been studied to simplify applying metal frames to wood while protecting the external part of the doors and windows and integrating them for optimum aesthetic effect.

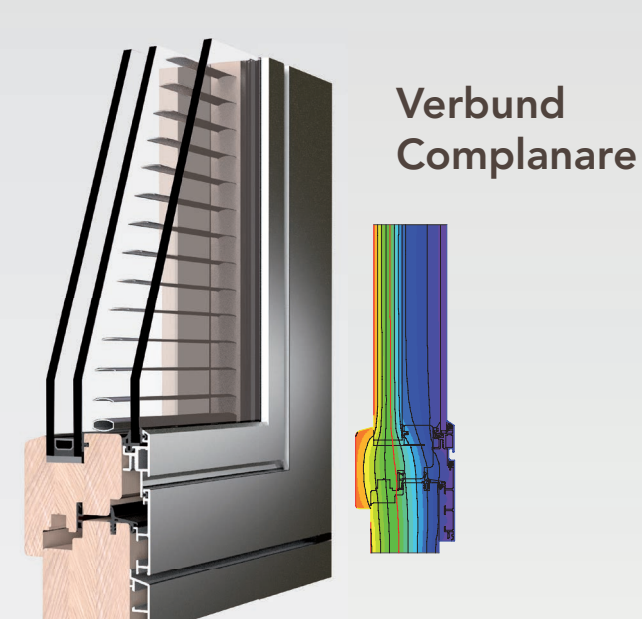

DE Die Systeme Uniform aus Holz-Aluminium und Holz-Bronze für Türen und Fenster sind in einer großen Auswahl an untereinander austauschbaren Profilen erhältlich und eignen sich für alle Arten von Tür- und Fensteröffnungen. Diese Systeme wurden eigens entwickelt, um die Anbringung der Metallrahmen auf dem Holz zu vereinfachen, die Außenseite des Fensters oder der Tür zu schützen und das ansprechende Äußere noch weiter zu betonen.

FR Les systèmes pour menuiseries Uniform en Bois-Aluminium et Bois-Bronze disposent d'une vaste gamme de profils interchangeables appropriés pour le revêtement de tout type d'ouverture. Chaque système est étudié pour simplifier l'application des cadres en métal sur le bois, en protégeant la partie extérieure de la menuiserie et en les intégrant pour mettre en valeur l'esthétique du produit fini.

ES Los sistemas para cerramientos Uniform de Madera-Aluminio y Madera-Bronce cuentan con una amplia gama de perfiles intercambiables, ideales para cerrar cualquier tipo de apertura. Cada sistema ha sido estudiado para simplificar la aplicación de los marcos de metal en la madera, protegiendo la parte exterior del cerramiento, e integrándolos para exaltar el resultado estético final del producto.
